Your perfect life is
comfortable and relaxing

Home elevators not only increase the value of your home, but can also provide you stunning showpiece. At the same time, home lifts can allow the disabled and elderly to easily move about a multi-level dwelling.

The term "home elevator" commonly refers to a lift enclosed in a shaft, and which can travel vertically as much as 15 m. (50 ft.). Home elevators make it easier to carry groceries, laundry or anything else from one floor to another. And today, they're fully customizable - choose from a wide range of materials, such as marble walls or stained glass, to turn your home elevator into an expression of your own unique style!

Ride in comfort to happy family lift

Dedicated inverter system, precise control of the elevator running, comprehensive approach to improve your experience by ladder, pre-torque function, according to the load information provided by the sensor automatically adjusts the torque to start the elevator, the elevator starts to make more natural, comfortable. Gearless sealed bearings without lubrication, the complete elimination of oil pollution, but also eliminates the gear box, bring the noise when the achievements of your wonderful home environment.

New concept electric home appliance leads a new and fashion life

TEKNIC home elevator installation either indoors or outdoors, have no special shaft, no special room, even without a large number of civil construction, like any appliance placement of your home as easy and without any space restrictions. Need is very low maintenance costs.
